Friends,

You’ve embarked on a very special year with us, one of growth and change. After fifty-three years of service, we’ve established a new branding identity and are building our first-ever permanent home!

These changes remind us of how our clients feel when they get the keys to their first safe home, when they obtain meaningful employment that lifts them out of poverty. Or when they learn how to speak English and finally feel more connected to their neighbors. When new possibilities emerge just like that: lives transform. As our client’s lives move forward with each of their accomplishments, our whole community thrives just a little bit more.

The pride we feel to finally have a place to call our own is overwhelming and exciting. Finally we will be able to serve our clients, staff and our community for decades to come in a central, permanent location. We look forward to welcoming you to our new building in early Spring of 2020, where we will continue to work hard to create positive changes for all families in our region.

Sincerely,

Kathy Covey, CEO
Blue Mountain Action Council
"I feel like this has been the final puzzle piece for this being a sustainable life where we can start thinking about normal things... like are my kids happy, or how school is going, or what can we do for fun as a family, versus only thinking WHAT CAN WE DO TO SURVIVE?"

-BMAC, Pro Bono Client
